

PROPOSED COUNTY DETENTION HOME for juveniles, which was outlined this morning during a public meeting at Edwardsville. The county's Detention Home committee, headed by William B. Webb Jr., of Granite City, proposes

## County Detention Home Plan To Be Presented To Board

Construction of the proposed Madison county juvenile detention home was outlined in detail this morning during a public meeting in the court house at Edwardsville.

The meeting, conducted by Granite City Assistant Supervisor William B. Webb Jr., was attended by about 25 citizens in addition to county officials. Webb said his committee will ask the county board during a meeting next Tuesday to authorize a call for construction bids. "The home" to be located on property at the county TB sanatorium and financed with the county's half-cent sales tax, is estimated to cost \$200,000. Questions were asked how the structure could be financed with a \$14,000 budget and only \$80,000 currently in the sales tax reserve. Of the sales tax received by the county 60% is earmarked for the detention home.

The matter of financing is expected to be thrashed out during the county board session, Webb said.

Need for the juvenile home has been stressed for years by juvenile and welfare agency officials, who point out that mer children are placed in the county jail with hardened criminals because of the lack of suitable quarters.

Designed by Alton Architect Samuel Samer, the proposed home would contain 36 rooms, as well as offices and living quarters for a superintendent. Plans are for accommodations for 20 to 40 youngsters.

## Venice Police Arrest 2 Youths For Theft

Venice police have arrested two youths, one from Venice and the other from West Madison, on charges of burglarizing a Venice confectionery Monday night.

John Burt, 20, of 805 Jackson street, West Madison, and Richard Myers, 19, of 209 West street, Venice, were arrested by Venice police Tuesday for a burglary the previous night at Curtis Jenkins' confectionery, 312 Weaver street.

Each waived a preliminary hearing and was bound over to the grand jury last night by Police Magistrate Wesley Edwards. Bond was set at \$1000 each, and they remained in custody today.

Police said most of the estimated \$50 to \$60 worth of loot has been recovered. Included were \$295 in money, costume jewelry, watches, music boxes, 16 pound boxes of candy, cuff links, cosmetics, playing cards, cigarette lighters and cigarette holders. Glass in the front door was broken.

## FHMA Okays Use Of Funds To Make Pollution Survey

Granite City's drainage engineering survey, currently nearing completion, must necessarily take into account related pollution and sanitation data, hence funds for the purpose may come from the city's \$120,000 federal grant, a delegation of members of the Citizens' Survey and Drainage Committee was advised yesterday by Federal Highway and Home Agency officials in Chicago.

The committee members, along with Mayor Davis and City Attorney William Beatty, had gone to Chicago to request \$12,000 in federal funds for the pollution survey. Paul Harris, FHMA chief, said the application will not be necessary since there is more than enough remaining in the original \$120,000 grant to cover the cost of the pollution engineering survey.

During the conference, industrial engineers, accompanying the citizens' group pointed out that a preliminary pollution study made over a year ago by the East Side Levee and Sanitary District left little or no value now, insofar as Granite City is concerned, because "the whole picture has changed since then. Most of the major granite City industries will not use the proposed system, but will handle their own pollution for the time being."

It was explained, however, that it was possible for the city to have much less expensive drainage and pollution facilities. Decision of the industries to "go off" the city also will enable Granite City to have an ideal dual system with storm water drainage separated from sanitary flow. The older sections of Granite City are presently served with a combined system which is no longer permitted by state law.

Citizens who made the trip to Chicago yesterday at their own expense were G. W. Huebner, chairman of the committee; E. G. Schmitt, Donald Cairns, O. G. Schmitt, and C. E. Townsend, and Edward Jeneau, engineer of the city and a constable in the police.

Cost Below Estimate  
It was pointed out the initial cost figure, before the grant was received, was \$170,000 or more. It is estimated the job will take 2500 batches which could mean a total cost of \$47,000.

Prior to the start of the relining job, the 1630 feet of sewer line is to be cleaned under a \$6000 contract awarded last week to National Power Road work in Chicago.

Opposition to the repair job was voiced by Alderman Walter Nunn and Rufus LeMaster, but was overruled by the council.

## Cigarettes, Ham Stolen

Loaf containing a pound of boiled ham and six or seven packages of cigarettes was taken Tuesday night from the Alpha Cafe, 1920 Missouri avenue, according to a report made Wednesday morning to Granite City police by Mrs. Alpha Bennett, 735 Twenty Sixth place.

Damage was gained by pushing the ham through a window on the east side of the building.

## City and County To Operate Separate Polls On April 4

A special session by Township Supervisor Leonard Oram and City Attorney William L. Beatty, in the call for the special meeting, it was stipulated the purpose could be to revise city voting precinct and ward boundaries.

No Revisions Made  
The need for county and city polls is a question that has been discussed for years. A justice of the peace and a constable in each of five districts set up in the county under new state law, would go to the polls to conduct the election. The county's Detention Home committee, headed by William B. Webb Jr., of Granite City, proposes

## Pedestrian First Auto Victim Here This Year

Tennie Dean, Madison, Runs Against Auto On Cambridge Avenue

Tennie Dean, 60, of 1400 Madison avenue, Madison, died at 8:15 a.m. Tuesday of injuries suffered when he was struck by an auto in Madison at 5:05 p.m. Monday.

The accident was the first against the left side of Harris' car. The car was in the city area and the first traffic death in Madison since May 1940, when another pedestrian was killed.

Mr. Dean was crossing Cambridge avenue from the northeast to the southwest corner of Third street and began running to avoid a northbound truck that crashed into a car, police were told by Sylvester Thomas Harris, 47, of 2111 Hill avenue, Cloverleaf addition.

Hits Side Of Auto  
The pedestrian then ran against the left side of Harris' car, striking it with an exterior side mirror, the driver related.

Harris said he only had time to apply the brakes and avert slightly to the right. He was struck with a right-of-way violation.

Length and shape of the April 4 ballot for the city-township election in Granite City will not be known until after noon Saturday when the candidate withdrawal period ends.

While no rush of withdrawals is anticipated, it is noted that 45 candidates are seeking the 12 city offices to be filled, and 15 are in the race for four township posts; Races For All GC Offices

## American Steel To Reopen For 4 Days Next Week

American Steel Foundries plant will re-open next Monday and operate for four days after being closed this week due to a shortage of orders.

Works Manager A. P. Steinhilber said yesterday that sufficient orders have been received to reopen the plant for four days, but after that time the schedule of operations remains indefinite unless further orders are secured. "It will be a day-to-day type of operation," he explained.

The plant had been working three days a week since the first of the year, and was shutdown last Friday for a period of what was expected to be one to two weeks.

"Prospects look a little brighter," Steinhilber said, and he is expecting about 500 production workers back on their jobs next week. All but the cleaning and finishing department is to start Monday and the C&P crew is to report on Tuesday.

Order For General Steel  
A \$1,300,000 order for cast-iron for M-60 medium tanks has been received by General Steel Castings Corp. for its local plant. Delivery on the new contracts will follow those now being received by P. Whitehead & Co. of Chicago.

The new order is not expected to change the announcement made Monday that the General Steel Castings Corp. plant would reduce its work week from 37 to four days this week.

A spokesman for the company said the new order from Chrysler Corp. was anticipated at the time the work week was cut.

Madison police are investigating a severe beating received by Tony Deneff, 77, of 1049 Washington avenue, Madison, in his home between 8:30 and 9 p.m. yesterday.

Three young men forced a door lock to gain entrance and used an unknown object or objects to inflict multiple cuts and bruises about the face and head. They tied him with ropes and a belt, police learned, adding that he may have been knocked unconscious.

Deneff worked loose from his bonds later and called out, being heard at about 8:30 a.m. by a neighbor who called an ambulance. He was treated at St. Elizabeth Hospital. It is not known if the motive has been established.

## Cohan Ticket Unopposed In Nameoki Township

The politician's "dream" election - to run without opposition - is in the offering for a slate of candidates seeking office in Nameoki township.

The filing period ended Monday with only the Township Progressive Party ticket headed by Assessor Joseph Cohan submitting petitions of nomination to County Clerk Willard Hicks.

To be elected are an assessor, clerk, tax collector and a three-member board of auditors that will replace the present five-member justice of the peace board of auditors.

Neither Hicks nor incumbent Tax Collector Harold Massa of Town Clerk Willard Hicks are seeking election.

Rotter, 1014 Minerva street; Herbert E. Polley, 4128 North drives and William G. Schreiber, 1913 Harris street.

### Gas War Ends; Stations To Fight Future Cuts

Gasoline prices went back to normal at Quad-Cities area service stations at noon yesterday ending the 13-day old price war which lowered fuel rates five cents.

Prices for major brands now are 32.9 cents per gallon for regular grades and 36.9 for premium octane.

In an effort to halt future price reductions, a movement is underway by a service station union which operates in Madison and St. Clair counties.

The union has circulated petitions in the two-county area and has been signed by members. Copies of the petitions have been sent to area congressmen along with copies of a letter urging enactment of legislation to prevent gasoline companies from intermittently lowering prices in an attempt to wipe out a surplus.

According to Fred Fahnest, owner of a service station here and a representative of the Automotive Petroleum & Allied Trades Union 971, individual stations are asked to absorb part of the loss incurred during a price cut.

Fahnest said that during the recent cut, the gasoline company had suffered only a three cent per gallon loss while the service stations had to make up for the remaining two cents.

He said that price wars are not effective in eliminating surpluses in municipal areas, but added that stations along the highways probably have high sales.

### Accidental Death Ruled For Eldon Lemaster

A coroner's jury Tuesday night returned a verdict of "accidental death, caused by carbon monoxide poisoning" into the case of Eldon Lemaster, 20, of 2138 Benton street, who died Feb. 4 after being found unconscious in the family auto parked in the garage.

Deputy Coroner Henry Pieper said testimony was heard from LeMaster's brother, Jerry, and Granite City police officer, Dusan Gajlich.

Pieper said no testimony was given to shed light on the whereabouts of the deceased boy before he had returned home, where he lived with his parents, Third Ward Alderman and Mrs. Rufus LeMaster.

Jerry LeMaster testified that he had been summoned from his room when his mother noticed smoke seeping from the garage. She went inside to find her son slumped on the front seat of the car.

Jerry said that his brother was still breathing when found and artificial respiration was applied. He related that on several occasions last summer, his brother had slept overnight in the car at home, adding that Eldon had not at any time threatened to take his own life.

Police officer Gajlich testified that he had seen no signs of cuts or abrasions on LeMaster, although his neck had been discolored apparently from the poisoning.

He was employed as a salesman at a furniture store in Alton and had been a member of the Alton Elks club.

**Maryville School**

(Continued From Page 1)

George Eubanks, currently attending an Army course on the east coast.

**Bid Alternates**

Dr. Kaiser suggested that bid specifications be written so that the board can authorize two, four or six rooms at Maryville and possibly two at Wilson grade school, depending on the bids received. He said he is not hopeful that there will be enough funds for a Wilson addition, but that he feels the cost should be determined.

The superintendent said it may seem strange to be planning more facilities immediately after construction of Prather Junior high school and the Maryville, Wilson and Lake elementary schools in the 1957 bond issue. "But the 1961 enrollment projection of 11,837 is more than the 11,656 estimated for 1970 by Bartholomew and Associates in their 1956 projections," he told the board.

A discussion by Dr. Kaiser and School Attorney Maurice Dalley brought out that a bond issue would be necessary to build new schools but not to buy sites or midday existing schools, if there were available funds.

**Source Of Funds**

Explaining the \$70,000 accumulation, the superintendent said, "Since the budget was developed and approved in 1960, some additional funds have been made available to the school district through savings and other sources."

"By investing the balances remaining from interests on the 1957 construction bond issue, it was possible to earn \$24,567. Additional interest earned on building fund tax funds amounted to \$148."

"The sale of Liberty school provided an additional \$16,000 in the building fund and \$27,000 was saved by deleting specific items in the building fund budget for 1960-61."

Deleted items included driveway paving and a junior high blacktop project, he said, adding that a high school walkway shelter was built from a federal grant for GCIS instead of from the regular building fund.

**Economic Outlook**

"A factor which is difficult to determine is the economic situation in the community," Dr. Kaiser continued.

"According to a study we have just completed, there is evidence that the number of new houses being built now is not as great as in previous years. This is probably a temporary situation, and building will increase again in the future. However, there must be taken into consideration in predicting school enrollments."

Also, the employment picture is not as desirable as we would all like to have it in the area, and this, too, may influence the number of students who will attend school in this district. With these undetermined factors in mind, the administration is recommending some modifications to the Maryville school and permission to review school enrollments, building conditions again in September.

Mitchell, Wilson Problems

"It is evident that in the near future, additional rooms or an additional building must be provided in the Mitchell area. This area continues to grow and, with the new highway coming through and other desirable factors in the area, growth should continue in the future."

"In the Wilson school district, the enrollment exceeds the capacity of the building and in the future additional rooms must be provided at this center."

"In conclusion, it should be stated again that the general viewpoint of this report is conservative. Every effort has been made to spend tax dollars wisely and to stretch them as far as possible in providing for the needs of children in our schools."

"Personally, I feel that the board is to be commended for its efforts in making these savings possible, and I feel proud that additions can be largely paid and paid for from these savings."

The board briefly discussed adding to the present Mitchell campus, and decided to avoid further land acquisition for an interstate highway through that area.

## Safety of Youngsters On 19th St. Stressed

Safety of children in the downtown district was stressed today by Granite City Police Chief Raymond Willard, who suggests parents leaving children out of cars at the Washington Theatre to approach the theatre by traveling east on 19th street and drive into the special no-parking zone.

Chief Willard pointed out that many parents are driving west on 19th and double-park to let youngsters out. "The children then have to cross 19th street," the chief said.

He added that the danger is at its greatest point on Friday evenings, and said the best solution is for the parents to drive up to the front of the theatre where a special zone is provided.

## Rare Instrumental Group To Be Heard By Concert Goers

When the New York Concert Trio appears at the Granite City high school auditorium at 8 p.m. Monday, music goers will hear instrumentation rarely heard in concert halls.

The program, under the auspices of the Tri-City Community Concert Association, will be the third concert of the 1960-61 series to be presented locally.

The trio combines the rare combination of harp, flute, and cello—a chamber orchestra in miniature. Also, compositions for flute and cello, cello and harp, harp and flute, as well as solos for each instrument, will be featured.

The artists, virtuoso soloists, have played individually, together and as members of other concert groups in North and Central America and Europe.

Members of the trio are Ardyth Alton, cellist; Paul Boyer, flutist and Cynthia Oils, harpist. Selections will range from the classic masters of the 18th century to contemporary composers.

The next program will be held March 6 at the auditorium and will feature Brian Sullivan, the Metropolitan Opera's leading tenor, and many times guest star at St. Louis Municipal Opera productions.

## Robert Butler Jr. Wins Optimist Speech Contest

Robert Butler Jr. won first place honors for his speech on "Optimism—Ingredient for True Leadership" in the Zone F Optimist Oratorical contest held last night at the YMCA here.

His winning talk qualifies him to compete in a district speech contest to be held at Columbia, Mo., in April.

Butler, a speech student at Granite City high school, had become a finalist earlier this month when he won a contest sponsored by the Daybreak Optimist Club.

He competed against winners of the Twilight Optimist Club and Noonday Optimist Club. A panel of three judges made the selection, based on poise, voice control, enunciation, gesture, persuasiveness, knowledge of subject and subject content. All three speakers gave presentations of the same topic.

Zone F represents the three Granite City clubs and the Alton and Wood River groups. No contestants were entered from the out-of-town clubs.

Butler, a sophomore, is the son of Mr. and Mrs. Robert O. Butler, 3164 Aubrey avenue. His father is a speech instructor at St. Louis University.

Miller, 15, is a sophomore at Granite City high school and is the son of Mrs. Marianna Miller, 2225 Cleveland blvd.

Ferro, a student at Frather Junior high school, is the son of Mr. and Mrs. Peter Ferro, Rural Route One.

Judges were Rev. Calvin Marcum, Robert Dant and Atty Leo Konzen.

### Logan Concert Tonight

A meeting of the Logan PTA will be held tonight at 7:30, with the school band, under the direction of Frank Meyer, giving a short concert. Past presidents will be honored in observance of Founders' Day.

Granite City has no defending champions in the Saturday showdown; however, four titlists will return from other schools.

To Defend Titles

They are Jack Watkins of Jacksonville, the 95-pound kingpin last year who now wrestles at 103; Grady Hill, a familiar face from Cahokia who grappled at 112 last season and is at 120 this year; Tony Kusner, 112, of Wood River, another grappler well-known to the Warriors who comes in at 135 pounds at Wood River's Don Neece, who will defend his 165-pound title.

Among runners-up at last season's sectional who will compete Saturday are Granite City's Ernie Taylor (103), Heavyweight Billy Riddings, Buddy Feltch (127) and Roger Bloodworth (120), Bill Hoppe (112) of Edwardsville and Charles Gwynn (127) of Decatur.

Whereas the top four finishers in each weight division at the district meet here last week were qualified for the sectional, only the first and second-place finishers in Wood River may advance to the state tournament, which is set for Feb. 24 and 25 at Champaign.

List Of Entries

Schools which have qualified wrestlers for sectional competition in addition to Granite City are Belleville, Cahokia, Carbondale Community, Decatur, East St. Louis, Edwardsville, Effingham, Springfield, Fitchburg, Greenview, Illinois School for the Blind, Jacksonville.

Areal Scuba Diving Council Is Formed

The Greater St. Louis Area Diving Council, representing over 100 Scuba (Self Contained Underwater Breathing Apparatus) diving enthusiasts including the members of teenage and adult clubs in Granite City, was formed during a meeting of club representatives Tuesday in St. Louis.

A constitution and by-laws for the organization were adopted by representatives of the various clubs, who seek to promote better and safer Scuba diving in the area.

Among the first council officers elected Tuesday were Ronald Hunoyer, first vice-president, and A. J. Mueller Jr., secretary. Both are from Granite City.

Arthur Hartman was elected president, Leo Opp second vice-president and Gayle Harwood treasurer. All are from St. Louis.

Six clubs, including three from St. Louis, one from Granite City and the Granite City Bubblemasters and Kingfish groups, were instrumental in formation of the council.

Representing the local clubs at all of the organizational meetings were Richard Griffin, William Brannan, Louis Brown, Mueller, Hunoyer and Mrs. Louise Brown of the Bubblemasters, and George Cuvar, Craig Cooper, Larry Lewis and Quentin Hoover of the Kingfish Scuba Club.

The area council will hold its next meeting at the local YMCA on Thursday evening, March 2.

## Exterminators Win; Final Classic Cage Tilts Tonight

Modern Exterminators had to fight off a last-quarter onslaught by Bowland-Lanes Monday night, but the Classic Basketball league champions had a thick enough cushion to withstand the rally and came off with an 89-77 victory.

The Exterminators thus completed the season with a 9-1 record. Bowland had a 3-7 overall mark.

The losers trailed 60-48 as the last quarter began, but made the finish a close one with 29 points in the final period.

The regular Classic league season will be completed tonight at the Prather Junior high school when the Teachers and Friedman's meet at 7 p.m. and Spangler Oil and Latin Quarters follow up at 8:15.

Playoffs Next Week

Post-season playoffs begin next Thursday, with the final second, third and fourth-place finishers dependent on the outcome of tonight's games.

The playoffs at Prather JHS will pair the Exterminators with the fourth-place finisher in the initial game and the second and third-place teams in the later encounter.

The winners will meet in the Classic league playoff final at Prather JHS at 7 p.m. Monday, Feb. 27.

The Classic league standings:

# GCHS Warriors 'Hijacked' By Madison 'Bandits', 70-58

## Trojans Use Press, Late Surge To Subdue GC

Madison's Trojans, a bunch of ball-hawking bandits whose best offense is by admission of Coach Earl McClannahan is a pressing defense, stole away with their second victory of the season over Granite City here Tuesday night, 70-58.

A sea-saw contest which was not decided until the waning minutes of the fourth quarter, the game saw Andy Sullivan's Warriors grab an early 3-1 lead, surrender it and never hold it again, although the GCHS prepsters came close on several occasions in the second half.

Madison, which could boast a near-perfect record if it were not for Collinsville's Kahoks, improved its mark to 15-1 with the win. The Warriors, who will complete regular season play tomorrow night at home against Alton, are now 13-10.

It was the Trojans' dogged defense and fast break that broke the contest open. Madison was outdone, percent-wise, both from the field and the free throw line, but Andy Sullivan and McClannahan were displeased with their team's showings, and "visiting firemen" in the personages of prep coaches who have accounted for their teams against Tuesday opponents this season felt the same way.

**Low-Scoring Opening**  
After an extremely slow first quarter, which ended with Madison on top 15-10, the Warriors pulled to within one point at 16-17 before Madison spurred for eight quick points in exactly 14 seconds.

Granite City apparently had adjusted to the fast court press used by the visitors, but quick steals at midcourt by Dan Hrysko and Don Freeman proved otherwise. The band-chance eye of offense boosted the Trojans to a 23-18 halftime lead. Both ballclubs appeared tense in the first half, and bad passes, floor fouls and interceptions were a dime a dozen. The elusive fast break gave the ball without getting a shot on 13 occasions in the first 15 minutes of play.

The third quarter was all Granite City, however. The Warriors shot a blistering 61% from the floor, canning 11 of 18 shots, and twice pulled to within one point of tying the contest.

Each time Freeman gave Madison a bit of breathing room by countering with baskets of his own, however. The elusive fast break shared game scoring honors with the Warriors' Frank Knight. Both had 21 points apiece. Knight's jumper made it 46-42 Madison as the third quarter ended, and he drove to the basket for another score early in the final stanza to whittle the visitors' lead to two.

**Knight Hits 9 Straight**  
Knight, in fact, scored the first nine points for the Redmen in that closing quarter, while Madison was getting the scoring end of the nastiest fast break engineered all evening. Granite City's principal offensive punch was provided by Knight, who had himself an 11-point final period, and Jim Simpson, who scored 10 of his 16 markers in the second half.

Walker, held to three points in the first half by an effective 1-2-2 Warrior zone defense, scored 11 in the final two periods. Freeman was the third Trojan in double figures with 20.

**Both Teams Shoot Well**  
Both squads shot well when awarded free throw opportunities. Granite City hit 18 of 20 for 90%, and Madison's 22 for 75%. The Warriors were 46% from the field on 31 shooters in 45 shots, while Madison hit 34 of 54 shots for 63%.

Madison's Jayves clipped the Little Warriors in the preliminary contest, 67-60. The winners led 43-38 at halftime. George Moore led all scorers with 22 points for Granite City, and was aided by Larry Nolin, who scored 16. Leading scorers for the junior Trojans were Ed Petty with 18, Terry Andrews 15 and Mick Gray with 14.

Madison has Midwest conference games with Highland tomorrow night in Madison and at Cahokia next Tuesday, and will wrap up the season at home against Belleville Friday of next week. The Trojans are already the uncrowned champions of the MVC with an 8-0 record.

Tuesday's varsity scoring: Granite City — Frank Knight

**MADISON PLAYER KEN GRIGGS (33)** appears to be using the shoulder of Granite City's Jim Simpson (34) for support as he scores during his team's 70-58 victory over the Warriors Tuesday night. Actually, he is on his way back to the floor after a close-in shot that he capped a fast break. Other players identified (from left to right) are Harry Thurau (40) of GCHS, Ed Walker (55), deering force mask to protect a broken nose, Mox Prutz (behind Griggs) of GCHS and Madison's Don Freeman (15).

## 2 Loop Wins Can Elevate Devils; Lose 18th Tuesday

Mathematically, the Venice Red Devils can end the season in sole possession of seventh place in the MBC Conference standings.

One victory would put them into a virtual tie for seventh place with Livingston, which had ended its season with a 2-12 loop.

Should Venice drop both encounters, its 1-11 circuit record would become 1-13, and the loss would make them official cellar dwellers.

However, Coach Zahn Welp and his boys cling to the hope that they can take both contests and perform a feat not yet accomplished this season—winning two games in a row.

Venice is 1-18 in overall season play, and suffered its latest setback Tuesday when St. Peter and Paul downed the Devils 76-37 at Waterloo.

Gray Scores 22  
It was a typical Venice loss. The game came close enough to win the game, but could not come up with the necessary added punch, although Larry Gray got back in form by tossing in 22 markers, and John Corrie flipped in 17 points.

The Devils were unable to stave off a relentless attack by the parochial school's two hot shots, Arms and Lutz, who racked up 25 and 32 points.

Moreover, Venice could not keep the free-wheeling Waterloo boys from popping shots from all over the court. They made 31 of 82 shots for a 37% mark and hit on only 12 of 23 from the free throw line.

Devils Shoot 46%  
Venice got 15 fewer shots—67—but made 27 of them for a 40% average and hit on 13 of 24 free tosses.

St. Peter and Paul's strength also showed up in rebounding. It topped 49 from the boards and to the Devils' 34 rebounds.

Venice had dropped a 76-57 decision to the Waterloo team Dec. 15.

Other Devil scoring — John Koelker 11, Jim Ebersold 6; Pete Field 6, Jim Stephens 3 and Jim Ginterman 2.

St. Peter and Paul led 16-11, 38-31 and 54-46 at the quarters.

## Prather Wrestlers Edged 30-28 Again, Edwardsville Wins

For the second time in as many weeks, Prather Junior high school's wrestling squad came within one decision of a mat victory Tuesday in Edwardsville where they were defeated by the Little Tigers, 30-28.

The score and outcome were identical to a Prather-Roxana meeting last week. Coach Bob Zaleski's maters won half of the 12 matches, but Edwardsville recorded one more pin than did the visitors.

The Chiefs, now 1-7 for the season, are in Belleville Thursday afternoon for a dual meet, and will meet Roxana again on Tuesday in the season's wrap-up.

The results:  
55-pound — Richard Grizzard (P) defeated Mel Pagnath 7-0.  
103 — Carl Dippold (E) pinned Jerry Stearns in 2:39.  
112 — Mike (P) pinned Jack Foster in 1:33.  
120 — Ed Small (E) pinned Pat Kincaid in 5:49.  
127 — Scott Brooks (E) pinned Charles Ray in 3:14.  
135 — Charles Killian (E) pinned Walter Conklin in 0:43.  
138 — John Hanksy (E) pinned Ernie Ernst in 0:57.  
145 — Mike Thebeau (P) pinned Elmo Betts in 2:38.  
154 — Bill Stearns (P) pinned Bill Miller in 2:02.  
165 — Ron Nuernberger (E) pinned Ted Vasyak in 0:26.  
180 — Don Alvaro (P) won by forfeit, heavy weight — Mike Brimm (P) pinned Terry Johnson in 2:58.

In exhibition bouts, David Gayer, Nick Petrillo and Tom Ciller were winners, while Mike Ziglio, Phil Munner and Glen Warren were beaten.

## High National Traffic Toll Despite Local Improvement

Traffic records for 1960 reveal 38,200 fatalities in the United States, a total almost identical to that of the previous year. The total is appalling—over half of the Quad-Cities population—but so spread over the nation that the public fails to become sufficiently aroused to seek a drastic reduction, though Illinois has made significant advances.

Wider roads with limited access, such as those being built as part of the interstate highway program, are expected to help improve motoring safety. However, the rapid increase in the number of vehicles may counterbalance this and even cause the toll to edge upward.

In terms of the local area, auto deaths reached their greatest frequency in 1954, when there were 44 fatalities or one every eight days. The yearly rate has continued to drift downward, reaching 28 in 1957, 24 in 1959 and 19 in the year just concluded. Thus, there is real hope for still fewer highway deaths in this vicinity, if not in the entire country.

Until this week, when the record was broken, the Quad-Cities had gone over two full months without a traffic death. While this never continues indefinitely, each day means added life and usefulness for local residents. Caution, skill and never taking other motorists' response for granted can aid drivers in bringing the casualty toll even lower in 1961 and succeeding years.

Good manners are good form, even on the highways.

## Proposed Bill Would Turn Clock Backward To Confusion On Time

Of the many bills introduced in the Illinois legislature, some are worthy, others are borderline and a few have little chance or reason for passage. We trust that in the latter category is a revived effort to abolish daylight saving time.

Without going into all the advantages and disadvantages, it is a fact that this area and state are in step with the nation, the major metropolitan areas and the communications networks in the current April-October time changes. This is no time to turn the clock backward to the confusion of the past.

## Voluntary Contributions To City Treasuries A Rarity

Municipalities obtain funds in various ways, but seldom is a large sum presented voluntarily. An exception is the Madison Rotary club's \$2000 pledge, of which half has just been paid to the Madison city treasury.

The contribution is earmarked for construction of a concession and dressing room building to serve the Third street playground, athletic field and park area, a project considered worthwhile by both the club and the city officials.

Additional financing will be necessary, and the building will not be started until this is arranged by the city. But the receipt of club funds, a rare event for cities, will solidify plans for the building and make its establishment a certainty.

The balanced life includes a portion of play and pleasure.

## Air Pollution Regarded As Growing National Problem

Water pollution abatement is a prime issue here due to proximity to the Mississippi River, and it is also receiving wide consideration nationally. But also in the nationwide limelight is another type of pollution, that involving the air we breathe and its effect on health.

Just how this is to be fitted into the crowded federal budget has not been decided, but an advisory committee to the Surgeon General is calling for a threefold increase in research to control air pollution's "growing menace." The Illinois and St. Louis metropolitan areas have made long strides in ending industrial smoke, but problems remain unsolved in such areas as Columbia, where auto exhaust is to be regulated, and Pennsylvania, where deaths attributed to "smog" have occurred.

Goals for the decade of the '60s include a more detailed determination of air pollution's effect on human health and its damage to crops and animals, expansion of monitoring, development of new methods and equipment for curbing its sources, and evaluating related legal and administrative practices.

With the population rise destined to make the country more crowded, clogging streets and industrial centers and reducing "wide open spaces," the air will become even more precious than it is now. The effort to keep it pure deserves public support despite some probable cost and inconvenience.

## Do You Remember When . . . ?

Time change.  
The unemployment problem, today, is met with jobless compensation, supplemental benefits, distressed area relief proposals, etc.

How many recall the depression when, in the absence of most of these, employed husbands with working wives were sharply criticized by just about everybody? When school districts, as a matter of policy, would not even hire married women—nor keep a teacher if she got married? When it was almost unpatric to be a "moonlighter" (hold two jobs)?

With nearly one-third of the nation's staffs still now listed among the family breadwinners, we doubt if mere man will ever again have much to say about women working.

However, it is interesting to note that new Illinois Labor Director Robert W. Johnston has just urged elimination of moonlighting, saying that this would substantially reduce the 315,000 jobless in this state. He is asking employers and unions to act against the thousands of men and women receiving two paychecks.

## New Rotary District Boundaries Discussed

Rotary International's plans for creation of a new metropolitan area Rotary district were reported and discussed at yesterday's Madison Rotary club meeting. The change is to be effective July 1, and clubs have until March 9 to file any objections with the RI general secretary. Granite City, Madison, Alton, Bethalto, Collinsville, Edwardsville, Highland, Jerseyville, Roca and Wood River clubs are to be removed from District 646, leaving it from 46 to 36 clubs and by over 400 Rotarians. While full details have not yet been received, it appears that the new district is to include Madison and St. Clair counties, St. Louis and St. Louis county. It will be District 605.

District 646 has included Madison county and an area to the north including Quincy, Peoria, Galesburg, Springfield and Jacksonville.

Speakers at Wednesday's Madison Rotary meeting were two members, Frank Fijan and Harry Thebeus, who explained insurance procedures for auto damage repair and recalled incidents during their insurance careers. Fijan served as program chairman.

William F. Winter, president, appointed E. A. Friedman, John Sedlack and William Mehl as a committee to nominate officers for 1961-62. Plans were completed for a "ladies' night" meeting next Wednesday evening at the Trailways restaurant.

## Heart Fund Dance At Legion Post Feb. 25

A Heart Fund dance, with all proceeds to be turned over to the Heart Fund Association, will be sponsored by Tri-City American Legion Post 113 Saturday, Feb. 25, at the post home at 2531 Madison avenue.

Arrangements of the dance are being made by Junior Vice-Commander Joseph Summers. The dance proceeds by one day "Heart Fund Sunday," during which a fund-raising campaign for the Heart Association is conducted here. Legion members are being urged to participate.

During Post 113's meeting Tuesday night Senior Vice-Commander Joseph Gottfried reported memberships totaling 406, a number which includes 41 new members.

Gottfried presented pins for the re-enrollment of members and enrollment of new members to Stanley Edwards, Harry Hillmer Jr., Gilbert Niepert, Alex Duccini, Gene Ross, Lavene Harty, Harry Montague, Harry Haggue, Guy Cooper, Bert Harris and Edward Hammett. All are responsible for at least 15 renewed memberships. Gottfried was also included on the award list.

Post Commander Alex Duccini said the anniversary celebration of the American Legion organization will be celebrated here with a corn beef and cabbage and American flag to Wilson School Cub Scouts.

Harris was appointed finance officer by Duccini, replacing Harry Montague, who resigned the post. Duccini also announced that the post plans to present an American flag to Wilson School Cub Scouts.

## TELEPHONE TALK

by R. A. Pelster, Manager, Granite City, Illinois

### EXPANSION OF TELEPHONE FACILITIES

You may have noticed the underground construction activity occurring along Edison Avenue and 21st street recently. This construction involves three major cable projects which will add 5400 talking channels in the Quad-City area by April of this year.

This investment, which will cost us about \$349,000, reflects the confidence which we have in the future growth of this area. With the completion of these projects we will have first class telephone service available on an immediate basis as the actual growth in telephone users occurs.

### HOSPITAL CARE BY TELEPHONE

Each day a number of interesting or unusual communications problems crosses my desk. While this one didn't happen here in the Quad-Cities, I think you'll find it interesting, too.

The day after Thanksgiving, a young mother was hospitalized. She needed medication and complete rest. Everything went well until she began to miss her three little girls who were too young to visit her in the hospital. To make matters worse, she worried about not being able to do her Christmas shopping.

When the nurses discovered what was troubling her, they had a quick remedy. A phone was placed next to her bed. She talked with her children every day . . . and, what's more, did all of her Christmas shopping by telephone.

It's stories and services like this that make it possible for us to advertise like this: "You name any communications need, Southwestern Bell has a service to meet it."

### LOOKING FOR A PROGRAM

Your telephone company can provide a fascinating variety of free programs for your church, school or civic club. You can add sparkle to a future meeting with one of the many Bell System motion pictures. Or perhaps your group would be interested in a tour of the telephone building and a behind-the-scenes look at how calls are actually handled. Also available are science demonstrations. Teaching aids on proper use of the telephone may be obtained for the schools. Whatever your program need, just call the telephone business office, and we'll take it from there.

If you would like a copy of the "Programs" booklet, that describes the various programs that are available, call the telephone business office.

Call by number. It's twice as fast.

### FIRST BLUE AND GOLD

DINNER OF CUB PACK 24  
The first "blue and gold" banquet of newly-organized Cub Pack 24, sponsored by the Frohardt PTA, was held Tuesday at the First Presbyterian Church, Circle Three of the Presbyterian Women's Organization served dinner to 119 cubes, parents and guests.

Cubmaster Harold Bone was in charge of the program, and the theme was "Birthday Party for Scouting." Den Three pre-arranged a paper cake that was carried in by the cubes, complete with candles. A large sword was lifted to cut the cake when Cub Billy Watson popped out of the cake to the surprise of the cubes and guests. "Happy Birthday" was sung as the candles were blown out.

Games were conducted by Dens One, Two and Five, and all participated.

Bone presented badges to Steven Richard and Talley, Howard Bolton, William Watson, Charles Jennie, Kenneth Kent, Kevin Kent, Michael Ridge, David Parker, Paul Robertson, Gregory Voss and Robert T. Schneider, owner of the Wayside Tavern, 2160 Washington avenue, said the dissolution was a formality and did not in any way change his business.

He said he had obtained the charter about three years ago when he was not a resident of Granite City and purchased the tavern.

Announcements were made by Bone of a new flag, purchased by Jerry Kent and Glenn Hollis and presented to Committee Chairman Gilbert Watson; and of participation by the pack in distribution of Goodwill bags and collection of them as part of activities for Red Cross Week. He reported that the pack will entertain the sponsoring PTA at the PTA meeting, Feb. 21.

Bone introduced the evening's guests, John Slay and Floyd Pitchford, scout commissioners, and their wives and Mr. and Mrs. Charles Rodell, Mrs. Rodell is president of the Frohardt PTA. Den Four held the opening and closing ceremonies.

### BLUE AND GOLD

### BANQUET OF PACK 93

Cub Pack 93 held its "blue and gold" banquet Tuesday evening at the VFW Hall on Washington avenue, with Dan Brown, district executive, as guest speaker.

Bert St. Ivany, assistant cubmaster, acted as master-of-ceremonies and introduced the evening's guests, Mr. and Mrs. Walter Spiceland, George Webb, David Bourisaw and Lonnie Sheppard. Spiceland is institutional representative, Webb is chairman of the pack committee, Bourisaw is cubmaster and Sheppard is assistant cubmaster and Webelos leader.

The Webelos led the group in the pledge of allegiance, and the invocation was given by Mrs. Grace LeGrand. Den mothers were introduced and one-year pins were presented to Mrs. Joyce Hayes and Mrs. Mary Graham, a two-year pin to Mrs. Patricia Jones and a three-year pin to Mrs. Dolores Bourisaw. Pack committee members attending were Kenneth Graham, Charles Schaefer, Howard Ezell, Fred Law and Joseph Cechos.

Brown spoke of cub scouting, meaning to boys and told how it advances them to Boy Scout rank. This in turn carries them on to becoming better citizens, husbands and fathers, he commented.

Bourisaw presented awards to Richard Carr, Mickey Weiss, Mike Downey, Greg Harris, Robert Richardson and James Jones. Sheppard conducted a Webelos advancement ceremony for Ricky Ahlbers, Phillip Hartman, Douglas Law, Joe LeGrand, Lewis Phillips and Ronny Sheppard.

The pack and guests were entertained with films, "FBI Demon and FBI Phantom," on planes made by McDonnell Aircraft, and the Cardinal's spring baseball training, narrated by Joe Garagiola. The next meeting will be March 17 at Nameoki school, which sponsors the pack.

Tulips, daffodils, jonquils and hyacinths have begun blooming early at the home of Mr. and Mrs. Ray Durbin, 1644 Venice avenue, first sprouting through remnants of the snow.

## There aren't any more tough cuts!

Chuck Roast that broils like Sirloin!

Pot Roast you can oven-roast like Standing Rib!

## Swift's new Poten\* Tendered Beef ends toughness in every cut!

Swift has perfected a tendering process that makes top round so tender you can cook it on the rotisserie! Now all cuts cook quicker and easier than ever before! And every tender bite brings you high-quality meat protein! (You can still make delicious, braised pot roasts and stews. Martha Logan says prepare as usual, but take 15 to 30 minutes less total cooking time.)

Look for the label "Poten Tendered Beef" on both Swift's Premium and Swift's Select brands.

### HOW PROCESS WORKS

Swift's exclusive new tendered Process is a method of tendering beef from within, developed and patented by Swift & Company, with the approval of the U.S. Department of Agriculture. Natural enzymes in meat are supplemented by vegetable protein distributed throughout the meat tissue. (This is not a dipped or surface method.) This new tendering method has no effect on the meat cuts until cooked in oven, grill, or broiler. Then it releases amazing new tenderness never possible until now.

### MORTGAGE BURNING BY BUBBLEMASTERS CLUB

The Bubblemaster Scuba Diving club held a regular monthly meeting Sunday evening in the home of Mr. and Mrs. Ronald Homyer, 2605 Pontoon road, with Homyer conducting the meeting.

He reported on a fishing derby held at the downtown "Y" in St. Louis last week with two members of the Bubblemasters taking top honors. Al Mueller won first place and Al Mueller Jr. second place. The club also had the largest attendance of any club in the area present at the derby.

All divers were requested to start keeping a log of their diving time, as diving time is one of the qualifications necessary to rate the different classifications of divers. Homyer also reminded the club members of a Feb. 15 "swim night" at the YMCA, as a refresher course for the members during the winter months when open lake diving is not possible.

Carl Krohne was appointed by Homyer as assistant training officer to Mueller. A discussion was held on joining the newly formed St. Louis Area Diving Council, which a few members have attended to help organize. The object of the council is to promote general safety of skin and scuba diving in the area and to promote and stabilize diving in a more organized manner.

Clifton Blankenship was appointed chairman of a committee to form summer plans, with Glenn Wright, Mrs. Dixie Griffin, Fred Rehagen and Mrs. Vyvynne Durbin to assist him.

After the meeting, Mueller and Homyer burned the mortgage for an air compressor purchased last year by the club. A party followed, with Mrs. Valerie Evenden and Mrs. Griffin winning the games. The Homyer home was decorated with red and white streamers and red hearts in keeping with the Valentine theme. A motion picture was shown by Mueller on skin and scuba diving, with the starring actress making her first venture into the depths.

Members and guests attending were Mrs. Nora Homyer, Mr. and Mrs. Arthur Evenden, Mr. and Mrs. Louis Brown, Don Ballard, Mr. and Mrs. Al Mueller Jr., Mr. and Mrs. Fred Rehagen, Mr. and Mrs. Lewis E. Sablin, Mr. and Mrs. Glenn Wright, Mr. and Mrs. Carl Krohne, Mr. and Mrs. Blankenship, Mr. and Mrs. Rich Griffin, Mrs. Dora Gonzalez, New Kennedy, Mr. and Mrs. Ray Durbin, Mr. and Mrs. George Seal, Miss Jeanette Ballard, Mr. and Mrs. Al Smith, Miss Jenny McDonald and LeRoy Madison.

The next meeting will be March 12 at 2 p.m. at the local "Y".

#### County Sales Tax

#### Account Passes \$160,000 Mark

The latest monthly installment of Madison county unincorporated area sales taxes has passed the \$160,000 mark. The county's fund to \$162,000, of which 60% or \$97,144 is earmarked for construction of a juvenile home. The remaining 40% or \$65,162 is being devoted to renovation of the county jail and courthouse. Illinois' Department of Revenue disclosed this week that the half-cent county tax on November sales netted \$12,966 for Madison county after subtraction of the state's 6% administrative expenses.

The tax became effective in this county Oct. 1, 1959, with the first month's receipts amounting to \$10,150. The total for November 1959 was \$9,948.

#### 2000 Live In Trailers In Madison County

An estimated 2000 persons in Madison county reside in trailers, it was announced today. Based on 301 trailers in the county licensed by the state. Of the total, there are 114 licensed trailers in seven courts in Granite City and 19 in two courts in the Madison area. The Illinois Department of Information Service at Springfield said, "97% of all trailers used in Illinois are occupied as homes and not as travel units, and at least 60,000 persons in Illinois reside in trailer coach parks."

In Madison county there are 30 trailer parks. The growing number of citizens living in these mobile homes calls for increasing attention in environmental sanitation. Dr. L. Fartherhouse, director of the Illinois Department of Public Health, pointed out.

Trailer coach parks are licensed by the department and during 1960 about 1300 inspection visits were made.

When the law was enacted in 1953, about 450 trailer parks provided 15,000 spaces. In 1960, the 658 registered parks provided almost 24,000 spaces.

#### Kiwans See Slides

#### On Far East Countries

Color slides of scenes from Far East countries were presented Monday night at the inter-club meeting of Granite City Kiwanis and the O'Fallon Kiwanis Club, which was host. The slides were photographed in Viet Nam, Hong Kong, Cambodia and Thailand by Harry Durkin of O'Fallon, a heavy equipment mechanic and world traveler. Durkin also will present the slides at a March 12 meeting of the club here.

Among the slides was a photo of a solid gold Buddha in Thailand, weighing more than five tons and worth more than \$300,000.

The Buddha had been encased in a concrete shell and only recently, by accident, the gold interior of the idol was discovered when it was being moved.

It had crushed the conveyance and toppled, cracking the concrete shell.

During the business session, the traveling mall was presented to the host club by Marvin Barnes, past lieutenant governor of Division 14, also inducted two new members for the O'Fallon club.

Twelve members of the local club attended the meeting. Last Saturday, 36 members and wives attended the Valentine party at the home of Leland Britt, in Leland, Mo.

#### State's School Claims To Be Paid At 93.6%

School claims for Madison county will be paid on the basis of 93.63% because appropriation for apportionment is insufficient to pay school claims in full at this time, according to a report received by County Superintendent Wilbur R. L. Trimpe from the state auditor of public accounts.

Trimpe's office will receive \$473,302 each month for six months to be distributed among the school districts in the county. The funds are distributed on the basis of average daily attendance.

Of the \$473,302 total, the three local districts are to receive \$148,690, including \$112,821 for the Granite City district, \$34,108 for Madison and \$2701 for Venice. The amount for the Granite City district is largest in the county, topping the Alton district by \$11,084.

The final six payments for the 1960-61 school year ending in June will be made after adjustments are completed by the state superintendent's office.

Trimpe said at Edwardsville that he is hopeful the state legislature will appropriate emergency funds to pay the schools 100% of their claims. At present, the 6% cutback amounts to \$370,814 for school districts in Madison county.

John Tonooff's Coolidge junior high school cage squad folded before a third-quarter onslaught in Wood River Monday evening and dropped its final game of the season to the Little Oilers, 52-46.

Wood River scored 20 points in a good third quarter to take a nine-point lead after the Braves had led by one at half-time. Coolidge sank only 10 of 28 free throws in the losing effort against a team it had beaten by 18 points previously this year.

However, the Braves won five of their last seven games after a slow start and completed the season with a 9-6 record. Top scorers for the Braves Monday were Jim Cant with 15 points and Jim Profit with 12. Hohenkamp rimmed 16 for Wood River.

**Two Records Set As Sacred Heart Swamps Nameoki Methodist 123-33**

Sacred Heart established an all-time scoring record in the Granite City park district's Church Basketball league Monday night by defeating Nameoki Methodist 123-33 at the Coolidge junior high school gym.

Marty's Paul Mosby also set an individual single game scoring record for park district players by tallying 61 points in the contest. The old mark of 54 points was held by Bob Miller of the Teachers, who scored that total against opponent regarded as stronger.

The victory also assured Sacred Heart of at least a tie for the church league championship. First Assembly of God, which edged St. Bartholomew's 65-64 Monday night, completed its season with a 2-2 mark. The Hearts have one remaining game and stand 8-1.

In Monday's third league encounter, St. Joseph's threw a 26-point final quarter against Trinity Tab. The team had 22 for 44 in the last 10 minutes and came off with a 67-42 victory.

Mosby, who hit on 26 field goals, finished with 61 points, "set up" by teammates often observers said.

The Hearts had it salted away.

**C. Of C. Warns Of Sea Water Diet Supplement**  
Harlan D. Dobry, manager of the Tri-Cities Chamber of Commerce, today warned against purchase of a sea water diet supplement to relieve ailments. Dobry said that according to the National Better Business Bureau, several firms in various sections of the country have advertised concentrated sea water as being beneficial to persons suffering from arthritis, cancer, diabetes, loss of virility, baldness and gray hair. According to the bureau "such claims are unsupported by medical research."  
"Sea water is an insignificant source of materials for any person whose diet lacks certain minerals," the bureau said. Amounts of daily requirements for prevention of deficiency diseases have been established by the Food and Drug Administration for four minerals—Calcium, phosphorus, iron and iodine.

**Mitchell Kiwanis To Erect Street Signs**

New street signs will be put up in Mitchell within two weeks. It was decided at a meeting of the Mitchell Kiwanis Club Monday night.

The signs and brackets were received some time ago and the posts arrived last weekend.  
Mitchell has been without the signs for some years, although street names have been in existence.  
In other business, a committee planning a pancake-sausage supper to be held April 15 reported all food has been purchased for the affair.

**House Owned By Church Damaged By Vandals**

Small boys caused minor damage in a dwelling owned by the Community Heights Assembly of God Church at 2730 Buxton avenue, according to a report made to Granite City police Monday afternoon by the pastor, Rev. Glenn Utley.  
Three boys, about nine years of age, entered the house next to the church building through a basement window and smeared a water-base paint on walls and left water standing on the kitchen floor which caused several tiles to buckle.  
Rev. Utley said the paint was easily removed and damage to the floor tile was minor. The house formerly was the parsonage and is now used as a recreation building. The pastor said he was able to contact the boys' parents.

**Hit-Run Accident**

**Valiant is running around with other men's wives all over town. Why not yours?**

What makes Valiant such a matinee idol? Good looks, of course. A case of love at first sight for most women. Courty manner. Caters to a lady's slightest whim, skipping through tangled traffic or scooting into a size 7 parking space. Valiant's the strong, silent type—as you'd expect of its unitized body.

Valiant's Torsion-Aire suspension carpets the roughest roads around. And what a beautiful bargain. Valiant—a low-priced compact last year—has reduced prices for 1961! And its inclined engine sips fuel so sparingly, it often seems Valiant is running on its good looks alone. Wouldn't it be a good idea to introduce your bride to Valiant right now?

## GC Man Pinned Beneath Auto Escapes Injury

A Granite City man who was pinned beneath his automobile escaped injury Tuesday morning when a neighbor ran to his aid and jacked up the car.

Fred Clements, 43, of 2143 Benton street, was preparing to work on the transmission of his 1959 auto and was crawling under it when it slipped off two bumper jacks, about 8:10 a.m.

Police also were summoned to the scene, which was in the yard at the rear of Clements' home but a neighbor, James Franklin, 2139a Benton street, was first to arrive and freed the trapped man.

Clements, an employee at the Reilly Tar & Chemical Corp. plant, told the Press-Record he

## Thieves Now Steal An Auto Window

Thieves who have been stealing a wide assortment of equipment off parked cars started a new trend Monday night by taking an auto window.

Robert Kraus, 1424 Madison avenue, reported to police that the left window was stolen out of his 1960 foreign-made sports car while it was parked in the 1800 block of Edison avenue.

The theft occurred between 8 and 11:30 p.m. and Kraus said the thieves also jabbed a hole in the rear window of the car.

## Re-Enactment At Scene of Burglary Clears Boy, 13, Who Had Given Confession

Re-enactment of crimes plays an important role in police work—not only aiding in the solution but also protecting the innocent. It was pointed out this week by Madison Police Chief Barney Fraundorf.

Such a re-enactment exonerated a 13-year-old boy who had given police a detailed account of a \$200 house burglary but then was unable to re-enact the crime when he was taken to the house.

"The boy gave such a complete statement we were ready to begin questioning him on similar break-ins at other houses and to mark the cases solved and closed," the chief said.

However, as the chief and boy arrived at the house, the boy meekly commented, "I didn't do it," and he was completely unfamiliar with the inside of the house, Chief Fraundorf explained.

**Real Thief Arrested**  
With the boy cleared, police continued the investigation of the house burglary and several others of a similar type which had occurred last September and October, and with the cooperation of Venice police went on to capture the burglar who later admitted three break-ins at Madison and three burglaries in Venice.

**Fingerprint Double-Check**  
"His weren't among them, but if we had taken his confession at face value, we would have probably stopped the investigation and the case would have been cold by the time the fingerprint procedure cleared him," chief Fraundorf said.

Police were amazed at the detail the boy was able to give in his confession, but even this point was cleared in the investigation.

"This boy had extremely good eyesight and what happened was he was seated at a table on the right side of the officer who was doing the questioning, and the report of the burglary was to the left of the officer."

Services for John F. Ward, 77, of 2816 Dale avenue were held Monday at a Cairo, Ill., funeral home, with burial at a Wick-diffe, Ky., cemetery.

Ward, a retired Houston, Tex., motel operator, died Feb. 10 at the Jewish Hospital in St. Louis. His wife, Raynal, survives in addition to others mentioned in Monday's issue.

Arrangements are given in today's obituary column.

"We took this man to the scene for re-enactment and he was able to point out precise details and recalled some that even the householder had forgotten," the chief said.

The real burglar pleaded guilty to one of six counts last week and has applied for probation.

Chief Fraundorf said the boy would have been requested after his fingerprints had been sent off to the laboratory of the Federal Bureau of Investigation to compare others found at the crime scenes.

"The boy was able to look over the officer's arm and read the report of the break-in and fill in with some of the details. Needless to say," the chief said, "the questioning procedure had been changed, but it's rare that someone will admit a crime they didn't commit."

The chief further explained the boy had been picked up at about 3:30 a.m. one morning in the neighborhood where the burglaries were taking place.

"He told us he admitted the burglary so we would take him home. When we did take him home, we were unable to avail

en his parents and the boy had to slip into the house the way he had slipped out. He had left the house without his parents' knowledge and said he had wanted to go to a friend's house when we took him into custody."

The chief explained the boy had been spotted in the neighborhood by an alert resident who thought the boy was acting suspiciously.

"We're happy the way it turned out. The burglar was caught and the boy was exonerated. He called us recently to ask if he could tell one of his close friends that he had been cleared," Chief Fraundorf said.

## Elderly Housing Approval Expected In Few Weeks

Commissioners of the Granite City Housing Authority board are expecting approval within two weeks for construction of 100-unit development to provide housing for the elderly under the government's low-income housing program.

Meeting at the Kirkpatrick Homes offices Monday night, the board, headed by Robert Gibson, was advised by Executive Director David Morgan that final preliminary plans had been forwarded to the Chicago office of the Public Housing Administration.

The plans outline the proposed site development, showing roads, locations of buildings and utility lines. The authority has selected a tract on the Udeli-Blaichoff farm at the end of the 2800 block of Edwards and East 24th streets.

Preliminary planning is being carried out with a \$20,000 federal grant. Once the Chicago office approves the local authority's preliminary plans, they are forwarded to the Washington office for final approval.

Morgan said that when the announcement is received here, construction funds should be available for the preparation of working plans for the 100-unit project.

Also during Monday night's meeting, federal auditors were present and approved reports by the local Kirkpatrick Homes housing project.

**Collide At Intersection**  
A collision at Broadway and Klein street, Venice, at 6:40 p.m. Monday resulted in damage to the right side of the eastbound auto of Taylor Jones, 35, of 1221 Logan street, Venice, and the right front fender and headlight of the westbound car of Edith Story, 211 Madison avenue, Madison. Jones was making a left turn onto Klein street, he told police.

## \$100 Fines On 2 Counts

Fines totaling \$100 and costs were imposed Tuesday morning on Floyd Elton Kilmer, 28, of 2151 Benton street, who pleaded guilty to charges of disorderly conduct and creating a disturbance. He was taken into custody about 12:38 a.m. Tuesday by Lyle Beatty, 2155 Benton street, who filed the disturbance charge in life sciences.

# Grade, High School Students Begin Work On Exhibits For Science Fair

Grade and high school students in Granite City and Venice have begun the preparation of exhibits for the 14th annual Greater St. Louis Science Fair, and grade and junior-high school participants in Granite City are planning to conduct a local fair to select the top exhibits for the area judging.

Conducted by the Science Teachers Committee of Greater St. Louis Schools, the area fair will be held in the field house of Washington University April 20-22.

Pre-fair judging at Washington University for exhibits entered by students in the first eight grades will be held April 20-23, with selected exhibits advancing to the fair proper, where they will be judged together with entries by high school students.

\$35,000 in scholarships. Tuition scholarships totaling \$35,000 will be awarded at the fair, together with several hundred dollars in cash awards and proficiency certificates. Individual winners qualify to advance to the National Science Fair later this spring.

The fair is open to any boy or girl interested in science who is attending public, private or parochial school in the city of St. Louis, St. Louis, St. Charles and Jefferson counties in Missouri, and Madison, St. Clair and Jersey counties in Illinois.

The six classifications of exhibits are biology, conservation, physics, chemistry, engineering and physiology. Students who have not yet entered their fair may obtain further information by contacting science teachers in their schools or by writing to the Science Fair Committee, Board of Education, 911 Locust street, St. Louis.

Purpose of Fair. The purpose of the fair is to focus attention on science, stimulate student interest, motivate the student to make discoveries, encourage and inspire in youth the desire for scientific experimentation, vitalize the ability of pupils to think scientifically, offer an opportunity to display scientific talent through exhibits and demonstrations, recognize talented youths without exploiting them and encourage further work in the field of science in college and industry.

Last year's fair drew over 9,000 project entries by some 12,000 students from the area. The science fair committee has suggested that because of the growth of the fair in recent years school districts conduct their own elimination fairs to insure the spending of only the best exhibits to the Washington University field house.

Pre-Fair At Central School. Central grade school, following that suggestion, will conduct its own pre-fair judging on March 10, and letters inviting other grade schools and junior high schools in the Granite City district to participate have been sent out.

Judges at the Central school pre-fair exhibit will come from scientifically related departments of local industry and business. Exhibits will be set up in the Central school gym and may be viewed by the public free of charge.

Members of the Science Club at Lincoln high school in Venice are beginning work on several individual and group exhibits, and the outstanding ones will be taken directly to the Science Fair in St. Louis.

No other schools in the Venice district have made plans to enter exhibits in the fair, and school officials in Madison said the district will not participate this year.

Seven separate divisions for judging purposes have been established at the Science Fair in St. Louis.

They include the primary division for pre-kindergarten through fourth grade students, the intermediate division for grade students, the intermediate division for grades five and six, the junior division for grades seven and eight, a ninth grade division, a senior division for individual and group high school entries, a special division for high school students using special equipment who have done intensive research or have the advice of outside professionals, and the scholarship division open only to high school seniors who rank in the upper one-third of their classes and can use scholarships in September.

Offering scholarships to the winners in the latter division, which vary from \$100 cash awards to full four-year tuition, are Southern Illinois University, Illinois College, MacMurray College, the University of Missouri, Washington University, Rolla School of Mines, Fontbonne College, Lindenwood College, St. Louis University, William Woods College, Westminster College, Webster College, the St. Louis Dental Society and the St. Louis Medical Society.

Boy On Magazine Cover Of Children's Hospital

Not many people have appeared on magazine covers, but an exception is Danny Mustain, son of Mr. and Mrs. Daniel Mustain of Granite City. Only three years old, he was featured anonymously on a special publication of the St. Louis Children's Hospital, which has since announced his identity after receiving many inquiries.

The brochure was prepared in connection with a hospital fund drive to secure contributions for children's care, services, equipment and surgery. One of 4,004 youngsters treated there in the past year, he was shown on the cover, seated on a hospital bed and looking appealingly toward a white-clad woman helping to feed him.

"We've had so many comments and inquiries about the youngster on the cover that we would like to introduce our 'cover boy' to the hospital relates in its monthly bulletin.

Giving his name, the bulletin relates that "Danny was a patient on pre-school while having plastic surgery performed on his hand, which he injured while exploring his mother's washing machine. He evidently enjoyed his stay in the hospital because he confided to the photographer that he is going to be a doctor when he grows up."

The brochure was the first in a series to be published by the hospital as a report to individuals and business firms sharing in its support.

"HEART AND LUNGS" is a title of a Science Fair project being completed by Diane Kinney, also a seventh grade student at Central school. Her exhibit, painted on a pane of clear plastic in varying colors of oil paints, will show how blood is circulated and purified in the human body.

Craters and Mountains on a model of the surface of the moon are molded in clay by (left to right) Richard Giebe, Rollin Yates and Steve Rutherford, Central school seventh graders, who call their Science Fair exhibit "Pretentious Animals." Identified in the picture are brontosaurus, stegosaurus, the flying pterodactyl, corylosaur and plesiosaur.

Auto-Truck Accident. An auto and a truck were involved in an accident Monday in the 1200 block of Nierdinghaus avenue where both vehicles were traveling east. H. W. Bayer, 34, 2821 National avenue, driver of the auto, told police he stopped for a car that was being parked and the rear of his auto was hit by the truck operated by Elbert H. Flaughner, 2459 Cleveland blvd. He posted his driver's license as bond.

Speeding Ticket. An arrest ticket charging him with speeding was issued Monday night by Granite City police to Aaron C. Crumbliss, 21, of 2459 Cleveland blvd. He posted his driver's license as bond.

County Clerk Explains

## Voter Registration Required For April 4 JP Election

Registered voters who have changed their address since the election listed on their most recent "Certificate of Registration" (pink card), should notify the county clerk immediately and before March 6, Miss Elia Hotz, county clerk, said today. Voters must be properly registered for the April 4 Justice of the Peace election.

There is a space provided on the reverse side of the pink card for reporting a change of address or, if your Certificate of Registration has been mislaid or lost, send a letter directly to the county clerk at Edwardsville stating your old address and your new address and the date you moved," she explained.

Election Code. Anyone wishing to vote for Justice of the Peace or constable must be a properly registered voter, the Election Code provides. These two officials will no longer be considered township officials since they are to be elected in the county clerk's office on April 4. According to a bill in the Senate up for emergency legislation, justices of the peace and constables will be known as county officials.

The city and township of Alton and the township of New Douglas, have adopted permanent voters registration for their local elections. However, in all other cities and townships in the county a person need not be a registered voter to vote for township or city officials, but he must have the qualifications of a years' residence in Illinois, ninety days in Madison county and 30 days in the precinct.

Absentee Ballots. Absentee ballots for the justice districts will be ready Feb. 20 in the county clerk's office in Edwardsville, for absent electors in the United States Service or their dependents who are traveling with them. Miss Hotz pointed out that she only has jurisdiction over the ballots for Justice of the Peace and constable. Any absent elector wishing to vote for other city or township officials must apply to their respective city or township clerks.

Civilians wishing to vote absentee ballot may apply to the county clerk between March 6 and March 30 by mail or in person at the county clerk's office in Edwardsville, between March 6 and noon on April 1. The law requires the county clerk to keep her office open the Saturday preceding a county wide election from 9 a. m. to noon. The daily hours are from 9 a. m. to 5 p. m. Monday through Friday.

## GC Dog Muzzle Law Enforcement Renewed

Granite Cityans are being reminded of the city's muzzle law which requires muzzles for all dogs roaming the streets.

City Inspector Jack Fricke said complaints on individual dogs and packs numbering up to eight and 10 roaming through yards and damaging property are being received daily and are coming from virtually every section of the city.

He said that dog owners are required by city law to keep their pets either tied or penned or to put muzzles on them if they are to be permitted to run. "We plan to enforce the muzzle law," the inspector said.

## Strengthen MPA By-laws To Meet Expanding Role

Revised bylaws of the Metropolitan Plan Association, proposed by the executive committee, were unanimously adopted at a meeting of the board of directors Tuesday afternoon in St. Louis.

Provision was made for multiple memberships with annual dues of \$100 for business firms and \$25 for individuals. Authority also was given by the board for the appointment of a committee to nominate new directors to serve staggered three-year terms. The election will be held in April.

Founded over 15 years ago, MPA has been an active citizens' organization in the St. Louis region, which embraces Madison, St. Clair and Monroe counties in Illinois. It has been responsible for the establishment of numerous planning groups and agencies on both sides of the river, as well as creation of the official Bi-State Development Agency and also the Bi-State Pilot Committee, which is made up of 22 Illinois and Missouri citizens named by the presidents of the three universities in this area.

Revision of its bylaws, it was pointed out, is essential in order for MPA to fulfill its expanding role in a region that is becoming increasingly conscious of the need for coordinated development.

Attending Tuesday's meeting from the Quad-Cities were E. G. Schmitt, G. W. Hoelscher and C. E. Townsend.

## Last Payment On 2 Schools, First 1961 Tax Warrant

Final payments to S. M. Wilson & Co., general contractor, on the Wilson and Lake grade schools were authorized last night by the Granite City school board. The payments of \$200 on Wilson and \$100 on Lake mark the completion of the two contracts. Supt. Harold M. Kaiser said the Wilson firm's \$282,600 contract for general work on Granite City high school additions was trimmed by \$3,049 to \$279,551 as a result of a change order authorized by federal officials in Chicago Monday and approved by the board Tuesday. It results from past brick and tile selections on the federally-financed project.

The board also paid \$2311 to Rite Electric Co. for work at the high school. Other bills approved totaled \$22,828 for the educational fund, \$2400 for the building fund, \$983 for the 1957 construction fund, \$13,456 for the transportation fund and \$39,770 for the lunch program.

Board Secretary Howard Kaseberg commented that water, electricity and telephone bills are "getting within reason" following acceleration in attention given to utility costs. President Homer Huber said custodians deserve commendation for their efforts to reduce the costs.

**3 1/2% Interest Rate.** First borrowing for the current fiscal year was authorized Tuesday night with the decision to obtain a \$200,000 anticipation warrant for the educational fund from the Granite City Trust and Savings Bank at 3 1/2% interest.

The interest rate is 1/2% higher than last year and was determined by Township School Treasurer Henry Lauderer in talks with the Trust and Savings Bank and First Granite City National Bank, Supt. Kaiser said. He noted that the last previous warrant was obtained from the First National and that the Trust and Savings was next under the board's policy of alternating between the banks. "That's been the policy," Huber said in agreeing.

The superintendent suggested blanket authority so that tax warrants could be delayed until the day needed, saving in interest costs. School Attorney George Dailey said this could be accomplished by borrowing only as much as needed on each warrant or two weeks later, with the interest on each amount starting only when it is borrowed. Huber said the board should be advised regularly of financial needs so that it can authorize necessary warrants at its meetings.

Board Member Herbert Bischoff noted the interest boost and said some agencies recently have lowered interest. Dr. Kaiser said he has not contacted the bank but that he feels 3 1/2% "certainly is a reasonable rate for borrowing money."

Questioned after the meeting, the superintendent said the \$200,000 amount, contrasting with smaller sums in the past, was suggested because it will result in fewer warrants being needed and because the board meets only twice a month. A \$35,921 deficit has not resulted in a bank overdraft due to outstanding checks and salary withholdings.

**Buy Orchestra Equipment.** Acting on music equipment bids, the board approved purchases of \$4986 from Johnson's Music Shop, \$579 from Lyons Band Instrument, \$156 from St. Clair Music Shop and \$72 from P. C. Bearden Violin Shop. Included were five string basses totaling \$892 to be used in establishing a string section for an orchestra in the school district.

Noting that the bids included portable "phonographs," Huber pointed out that the 15 firms sent bid requests did not include local firms other than Johnson's, although others handle phonographs. A check of records showed a wider request list in the past, with no response from local dealers other than Johnson. The bid letting was advertised by newspaper notice.

The board accepted a low bid of \$126 from Graham's Bookstore on supplying two permanent-type home plates and two sets of bases for school baseball, and a low bid of \$181 from Douglas Sheet Metal on a downspout.

Small cafeteria equipment, electrical work and home economics appliance bids were opened and referred to the staff for tabulation.

It was decided to schedule \$14,415 science textbook purchases and to notify the federal government, which is expected to reimburse 48% of this under the National Defense Education Act.

**Depot Bus Reimbursement.** The board voted to begin reimbursing the Granite City Engineer Depot for transporting

Depot children to Granite City schools, at the state rate of reimbursement to the school district. This will amount to about \$16 a year for each of about 84 pupils. It was noted that the district is a regular recipient of state and federal funds.

No discussion was held on the state's announcement that school aid payments will be reduced by more than 6% due to exhausting of appropriated funds. Dr. Kaiser said later that there is a possibility of a supplemental appropriation by the state legislature.

## Bi-State Honors Past Chairman, Chief Engineer

The board of commissioners of the Missouri-Illinois Bi-State Development Agency honored the past agency chairman, Charles M. Roon, and the agency's former chief engineer, Milton M. Kinsey, at a dinner meeting Monday evening at the Missouri Athletic Club.

Roon was presented with an engraved plaque citing distinguished service as chairman of the agency during 1959-60. Kinsey was given an embossed resolution signed by all the commissioners, in appreciation of his ten years of service as chief engineer.

The board of commissioners discussed the supplemental report of W. C. Gilman and Co. and its relation to other proposals for improved mass transportation.

After a full discussion, the board decided to seek further information as to details of the pending new proposal by St. Louis Public Service Co. and the degree of support which major communities in the area are prepared to offer to a Bi-State owned transit system.

In the meantime, the Bi-State Transit Committee was directed to give further study to aspects of Bi-State ownership and operation of mass transportation in the metropolitan area.

The executive director, Col. R. E. Sawyer Jr., reported to the board that satisfactory progress is being made with plans for the 4,000,000-bushel grain elevator at the Granite City harbor.

No date was set for Bi-State's next meeting.

## New City Sales Tax Record For 1960 Indicated

A new record on Quad-City municipal sales taxes seems assured for 1960, although the last month's funds have not yet been tabulated.

November city sales taxes, announced this week by the Illinois Department of Revenue, totaled \$2,215 in this area, boosting the year's mark to \$238,752. Previous yearly high of \$251,315 was set in 1959, when the \$226,479 total for 11 months was boosted by \$24,836 in December.

The current \$238,752 figure consists of \$192,807 for the city treasury in Granite City, \$35,128 in Madison and \$10,816 in Venice. For January-November 1959, the amounts were \$179,228, \$36,301 and \$10,965.

A breakdown of the municipal retailers' occupational taxes — less 4% administrative costs — covering November tax liability shows \$15,978 for Granite City, \$3,285 Madison and \$971 Venice.

November's \$20,215 Quad-City total compares with \$20,894 in November 1958, \$18,894 in November 1957 and \$17,710 in November 1956.
